

HARMONIC HEALING

PATRICK BERNARD

Quantum Music, or healing by the vibration of loving sound, can bring new balance and profound comforting to the body-spirit. The energy of love and gratitude constitutes the universal foundation of Holistic Healing, in addition to being the quintessence of the life force. By incorporating meditative listening of the higher frequencies and the power of intention, Quantum Music can raise the listener's vibrations and promote a state of union with the conscious, intelligent energy underlying all matter. This energy (called ch'i or prana) is increased and transported by the sound waves in order to help promote the complete harmonization of the listener.

PATRICK BERNARD

A resident of Canada, Patrick Bernard is currently celebrating twenty one years of well being music. Patrick Bernard creates original compositions in the tradition of devotional chant and invites his listeners into truly centered meditative states. In his recordings, ancient healing mantras and universal sacred chants are translated into a contemporary musical form, using high-tech synthesized multi-choral progressions and many ancient acoustic instruments. A warm and richly complex musical texture generates background for his singing in which he freely expresses his heart. Over the last decade, Bernard's records have consistently achieved high status in the realm of contemporary instrumental music, winning awards, achieving Gold status and even landing him on the Billboard charts (he was the first Canadian to climb Billboard's New Age chart).
