PATRICK BERNARD

A resident of Canada, Patrick Bernard is currently celebrating twenty five years of well being music. Patrick Bernard creates original compositions in the tradition of devotional chant and invites his listeners into truly centered meditative states. In his recordings, ancient healing mantras and universal sacred chants are translated into a contemporary musical form, using high-tech synthesized multi-choral progressions and many ancient acoustic instruments. A warm and richly complex musical texture generates background for his singing in which he freely expresses his heart. Over the last decade, Bernard's records have consistently achieved high status in the realm of contemporary instrumental music, winning awards, achieving Gold status and even landing him on the Billboard charts (he was the first Canadian to climb Billboard's New Age chart).
